They also requested an additional Add Alt item to include no rock bedding with the concrete tile. It was discussed that if this method is chosen, that CGA will require a waiver of liability. They Trustees also agreed that the standard bid will include a warranty, but to add another Add Alt item for the 2 year maintenance bond. Thomas asked the Trustees how they like to handle the retainage if Add Alt 2 (the 12 month CCTV post construction) is chosen. The Trustees agreed this would be a legal question for the attorney. McClellan moved, Granzow seconded to authorize legal review of the submitted contract documents with stated revisions. 8. DD 95 - Discuss, With Possible Action, Landowner Request Re: Current Project

14. DD 1 - Discuss, With Possible Action, Assessment Balance
Schlemme explained that when the county just recently went to a new software company that one of the checks from the first check writing had some issues. The drainage balance report produced from the system is duplicating this check in the amount of \$17,390.27. This was realized after assessments went out, so the district was over-assessed by that \$17,390.27. She stated that there is an outstanding project though that may use that money up. Gallentine explained that the project is more difficult than originally thought and should have the repair summary by the next meeting to see where we stand. The Trustees agreed to table any action regarding the assessment until estimates for the new project were received.
