Tina,
You are correct, it is scheduled to be repaired as part of the current project that was awarded to McDowells earlier this spring. However, if a temp patch needs installed, that certainly could be done with authorization of the District Trustees. Just let me know what the District Trustees decide.

Thanks,

Lee-
Jason called about a 10 foot hole in the field he farms for Leland Coburns that just keeps getting larger and larger. I stated that I believed this should be fixed this year with the current project, was that correct? If not, he would like to see a patch made and dirt brought in as a short term fix. I thought you'd also like to take note that additional dirt will probably need brought in if the project does continue for this year.

Thanks!
