Notes:

Note

10/29/20 - Had emailed and left voicemail 9-17-20, no response. Emailed and left voicemail again on 10/29/20. If no reply from Huebner, will agenda w recommendation to cloase WO on 11/10/20 Drg Mtg.

10/31/18-BOS approve. CGA to hire contractor to get water flowing.

11/14/18-Investigation Summary. Landowner does not have contractor available to start right away or originally suggested. BOS approve to assign to lotteyr system or lump with other projects for a contract.

1/16/19-Gallentine updated the Trustees that they found approximately 660 feet of 12" tile with 1 to 11 inches of sand in it. They recommend jet/vac clean to remove the sand/silt and allow dewatering of the tile. Once dewatered, they recommend excavation to determine the necessary tile repair. At this time, they believe it should be under the \$50,000 threshold, but will not know until they excavate. Hoffman moved, Granzow seconded to jet/vac clean and then excavate as discussed. All ayes. Motion carried.

3/22/19-Justin called and was wondering the status. Emailed Lee.

3/23/19-Lee says Paul Williams is only in county contractor with jet truck. Weathered turned bad and he wasn't able to get it done. Lee emailed Paul for update.

3/29/19: Paul Williams was out yesterday and today jetting tile. Removed majority of the sand downstream of the pond. As a result the pond is gone and the tile is now flowing. Williams is currently letting the site dewater and will be back later to preform tile repair and look upstream to see if additional tile needs jetted. Per Gallentine's email.

NEED TO UPDATE JUSTIN

5/13/19 - Justin Huebner (641-780-1423) called and said there is now water standing in the field just south of where Paul Williams had jetted the tile. He has 18A of corn planted and cannot plan anymore because of standing water. He is wanting this problem fixed as soon as possible so that he can finish planting.

Junker emailed the Trustee's & Gallentine to see if there was anything that could be done before Wednesday's meeting.

Notes:

Note

5/15/19 - Justin Huebner called to report standing water in his field. After much discussion, Granzow moved, McClellan seconded to request the landowner to verify the tile is plugged and not flowing. If it is found that the district tile is not flowing, the district will pay for the excavator work and research to repair. CGA is to notify the landowner of this motion so that if it is district tile he is comfortable with calling Lee right away to repair. All ayes. Motion Carried.

6/19/19 - DD 38 Lat 4- Discuss, With Possible Action, Repair Summary For Work Order #231

Gallentine presented the repair summary, and if there is poor drainage in the future CGA can do more investigation. In the fall is was determined that the landowner can go out and dig to find out if it is drainage district tile. No action required.

10/23/19 Justin Huebner called in to report issues with Lat 4 tile. Neighbor's parcel had repairs to Lat 4 that were expected to resolve his issues downstream. Huebner still has 7-8 acres that are flooded out and not resolved by neighbor's repair. Verified with Huebner current wet spot locations are the same as noted in DD 38 Lat 4 Observation Report, dated 5-16-19. Gallentine stated upstream of him was dry and it looked like the tile did not go through some of the wet spots, and it was left that if it was District tile, the District would pay for repairs, if it was private tile the landowner would pay for repairs. Hoffman stated for us to find a contractor and get to him soon may be tough, and would extend to Justin that we can send CGA out to verify if it is District or private tile issues and determine who is liable for repairs, what repairs, if any, are needed. Huebner would need to schedule with CGA once tile is exposed, so CGA can determine if it is District or private tile.

10/23/19 Cont. Hoffman motioned for Gallentine to contact Justin to coordinate investigation of tile issues, Granzow seconded. All ayes. Motion carried.

11/1/19 Gallentine reached out to Justin Huebner to let him know that Justin can dig to investigate the cause of the wet spots in his field, it is district tile Justin needs to let Lee know so CGA can visit site while it is uncovered & recomend repairs & report back to trustees. If district tile is the cause, the DD will pay for the investigation. If found to be private tile. the Justin Huebner would pay for investigation himself. Per Gallentine e...

9/2/20 - Having received no response back from Huebner to Gallentine's 10/31/19 email, Gallentine asked if Trustees would like Clerk to send a letter to Huebner to ask about current status of this work order, and if Huebner determined if this was private or DD tile.

Motion by McClellan to direct the Drainage Clerk to contact Justin Huebner for an update on that project. Second by Hoffman. In additional discussion, Granzow stated we should ask Huebner if he is no longer willing to pursue this so we can close books on WO. All ayes. Motion Carried.

Letter & Email sent 9/4/20 w request of reply in 10 days of receipt of letter.
