JLARA@HARDINCOUNTYIA.GOV

May 22, 2019

To Landowners of Drainage District 9:

Attached you will find the notice of public hearing on the engineer's report on repairs or improvements to main tiles for DD 9. Below are a few items to point out:

- The hearing will take place on Wednesday, June 19, 2019 at 1:00 P.M. in the lower level conference room of the Hardin County Courthouse.
- A copy of the engineer's report is on file in the Auditor's Office and available online.
- If you feel the report should not be accepted, you must file any objections in writing to the Auditor's Office by the time of the hearing.
- Because the engineer's report includes an improvement option, landowners have the right to file a remonstrance, which is a written document objecting to the improvement and signed by a majority of landowners in the district owning 70% or more of the land. If filed by the time of the hearing, the Trustees can no longer consider the improvement option, but the repair option can move forward.
- Once the Trustees approve the engineer's report, they will instruct the engineer to create project plans and specifications. When the plans and specifications are received from the engineer, the Trustees will set a date for a bid letting and establish a complete by date.
- Although your property may not be in the direct area of the repair, ALL property owners (including yourself) within the districts' boundaries are financially responsible for work done in the district. Any decisions made at this hearing will determine the amount that will be assessed to you once the project is complete.

If you have any questions or concerns, please feel free to contact the Board of Supervisors, as Trustees for DD 9, at (641) 939-8219 or by email at supervisors@hardincountyia.gov. You can also contact the Drainage Clerk at (641) 939-8113 or by email at drainage@hardincountyia.gov.

Sincerely,

Becca Junker
Hardin County Drainage Clerk
