- A spill prevention and control plan specifies which drainage facilities will be protected from a potential liquid manure spill and how they will be protected

PERMIT PROVISIONS

1. The Applicant does hereby agree to hold harmless, indemnify, and defend Hardin County, its Supervisors, Officers, Employees, and Agents, against any and all claims, losses, damages, or law suits for damages, arising from, allegedly arising from, or related to the use of Hardin County’s right-of-way by the Applicant under this permit.
2. Hardin County will issue a permit and inspect site (if needed) prior to construction. Upon completion, Hardin County will approve the construction area to insure the work was completed as specified by the County Engineer and that the site has a neat appearance and shaped in such a way that no water will run onto the traveled portion of the roadway or disturb the traveled portion of the roadway.
3. If construction is not completed as specified by the County Engineer, the contractor will be given one opportunity to make the necessary corrections within a ten (10) day period or Hardin County will make the necessary corrections and bill all expenses to the contractor.
4. In order to protect himself/herself, as well as Hardin County, under the indemnity agreement provision, herein above set forth, the Applicant does agree to have a general liability insurance policy in the amount of not less than \$750,000 in force at all times. A Certificate of Insurance shall be provided to the Hardin County Engineer’s Office prior to any work commencing.
5. Traffic control devices, procedures, layouts, signing, and pavement markings installed within the limits of this permit shall conform to the “Manual on Uniform Traffic Control Devices for Streets and Highways” as adopted by the DOT per 761 of the Iowa Administrative Code Chapter 130.
6. Notification shall be made to the Hardin County Engineer’s Office not less than forty-eight (48) hours prior to the time that the Applicant plans to use Hardin County right-of-way for manure application.
7. The Applicant shall remove hoses or pipelines from the crossing and Hardin County right-of-way with forty-eight (48) hours following the completion of each use of the hose or pipeline for application.
8. Areas within Hardin County right-of-way damaged during the application of manure shall be repaired and restored to at least its former condition by the Applicant or the cost of the repair work caused to be performed by Hardin County will be assessed against the Applicant.
9. Applicant is responsible for all costs in connection with any manure spills in the applications covered by this permit.
10. If a new crossing is required for this permit, and it may become necessary for Hardin County to relocate or remove such crossing to conform to new grades, alignment or widening of right-or-way resulting from maintenance or construction operations for road improvements, the Applicant shall be responsible for all costs associated with such relocation or removal.
11. Applicant’s failure to comply with any of the provisions above, the Hardin County Policy -- Road Crossings for Manure Application Using Hoses or Pipeline (effective September 16, 2009), or Applicant’s spill prevention and control plan will result in the revocation of this permit.
