# Agricultural Prices

ISSN: 1937-4216

Released November 27, 2019, by the National Agricultural Statistics Service (NASS), Agricultural Statistics Board, United States Department of Agriculture (USDA).

## October Prices Received Index Down 2.6 Percent

The October Prices Received Index 2011 Base (Agricultural Production), at 84.7, decreased 2.6 percent from September and 0.6 percent from October 2018. At 81.2, the Crop Production Index was down 6.3 percent from last month but up 1.2 percent from the previous year. The Livestock Production Index, at 90.3, increased 3.4 percent from September but decreased 1.2 percent from October last year. Producers received lower prices during October for apples, market eggs, and strawberries but higher prices for cattle, lettuce, milk, and broilers. In addition to prices, the indexes are influenced by the volume change of commodities producers market. In October, there was decreased monthly movement of cattle, milk, broilers, and greenhouse & nursery and increased marketing for soybeans, corn, cotton, and calves.

## October Prices Paid Index Up 0.5 Percent

The October Prices Paid Index for Commodities and Services, Interest, Taxes, and Farm Wage Rates (PPITW), at 110.1, is up 0.5 percent from September 2019 and 0.3 percent from October 2018. Higher prices in October for feeder cattle, feeder pigs, milk cows, and nitrogen more than offset lower prices for other services, potash and phosphate, mixed fertilizer, and supplements.

## October Prices Received by Farmers

**Crop production:** The October index, at 81.2, is 6.3 percent lower than September but 1.2 percent higher than October 2018. The other crop and fruit & tree nut index decreases more than offset the vegetable & melon and grain & oilseed index increases.

**Grain and oilseed:** The October index, at 66.9, is up 3.1 percent from September and 3.2 percent from October 2018. The feed grain, food grain, and oilseed indexes all increased.

**Feed grain:** The October index, at 63.9, increased slightly from last month and 11.7 percent from a year ago. The corn price, at \$3.84 per bushel, is up 4 cents from last month and 42 cents from October 2018. At \$5.88 per cwt, sorghum grain is 11 cents below September but 16 cents above October a year earlier.

**Food grain:** At 70.0, the index for October increased 9.0 percent from the previous month but decreased 7.5 percent from a year ago. The October price for all wheat, at \$4.45 per bushel, is 19 cents higher than September but 77 cents lower than October 2018.

**Oilseed:** At 68.9, the index for October increased 2.8 percent from September but was unchanged from October 2018. The soybean price, at \$8.60 per bushel, is 25 cents higher than September and 1 cent higher than October a year earlier.

**Fruit and tree nut:** The October index, at 128.5, is down 0.7 percent from September and 0.8 percent from a year earlier. Price decreases during October for apples, strawberries, pears, and grapes more than offset price increases for oranges and grapefruit.

**Vegetable and melon:** At 122.7, the index for October increased 21.4 percent from the previous month and 25.8 percent from October 2018. Price increases during October for lettuce, cauliflower, tomatoes, and cucumbers more than offset the price decline for potatoes.

**Other crop:** The October index, at 85.8, is down 7.5 percent from the previous month and 6.6 percent from October 2018. The all hay price, at \$161.00 per ton, is \$2.00 higher than September but \$2.00 lower than October 2018. At 59.1 cents per pound, the price for upland cotton is 2.4 cents lower than September and 13.0 cents lower than October 2018.

**Livestock production:** The index for October, at 90.3, increased 3.4 percent from the previous month but decreased 1.2 percent from October a year earlier. Compared with a year ago, prices are higher for milk and turkeys. Prices for broilers, market eggs, cattle, calves, and hogs are lower than a year earlier.

**Meat animal:** At 89.5, the October index increased 4.3 percent from the previous month but decreased 3.9 percent from a year earlier. At \$49.10 per cwt, the October hog price is \$1.40 higher than September but \$1.20 lower than a year earlier. The October beef cattle price of \$107.00 per cwt is \$4.00 higher than the previous month but \$3.00 lower than October 2018.

**Dairy:** The index for October, at 99.0, is up 3.1 percent from the previous month and 13.7 percent from October a year ago. The October all milk price of \$19.90 per cwt is 60 cents higher than September and \$2.40 higher than October 2018.

**Poultry and egg:** At 84.6, the October index increased 2.4 percent from September but decreased 11.4 percent from October 2018. The October market egg price, at 40.6 cents per dozen, is 1.8 cents lower than September and 28.4 cents lower than October 2018. The October broiler price, at 40.5 cents per pound, is 1.4 cents higher than September but 5.5 cents lower than a year ago. At 63.7 cents per pound, the October turkey price is 1.5 cents higher than the previous month and 12.6 cents higher than October 2018.

**Food Commodities:** The index, at 88.4, decreased 1.0 percent from the previous month and 0.6 percent from October 2018.

<sup>1</sup> Beginning in June 2019, Georgia was added to the quarterly milk cow price program.

## Parity Price Overview

Parity prices, based on data from January 2017, and adjusted base price data from which parity prices are computed are presented in the tables on the following pages. Parity prices are computed under the provisions of Title III, Subtitle A, Section 301(a) of the Agricultural Adjustment Act of 1938 as amended by the Agricultural Acts of 1948, 1949, 1954, and 1956.

The parity prices shown in this report are based on the provisions of the amended Act. Briefly, the actual method of computation is as follows:

- a. The average of prices received by farmers for individual commodities for the 10 preceding years is calculated (for 2017, the 10-average includes the years 2007-2016). An allowance for unredeemed loans and other supplemental payments resulting from price support programs, such as the deficiency payments for grains and cotton, is included for those commodities for which applicable.
- b. This 10-year average is divided by the average of the Index of Prices Received by Farmers for the same 10 preceding calendar years, adjusted to include an allowance for unredeemed loans and other supplemental price support operations, to give an "adjusted base price".
- c. Parity prices are computed by multiplying the "adjusted base prices" by the current Parity Index (the Index of Prices Paid by Farmers, including Interest, Taxes, and Wage Rates, 1910-1914=100).

Parity prices are calculated in terms of prices received by farmers in the local markets in which they ordinarily sell. This means that the parity prices apply to the average of all classes and grades of the commodity as sold by all farmers in the United States, except as otherwise specified. Fruits and vegetables for fresh use and for processing are usually considered separate commodities and separate parity prices are calculated. The Agricultural Marketing Agreement Act of 1937 provided for parity prices for certain commodities covered by a marketing agreement or order program. Under present legislation, United States parity prices, with appropriate adjustments where needed, may be used for the purpose of this Act.

## Commodity Parity Prices and Price as Percent of Parity Price – United States: October 2019 with Comparisons

[Parity prices are computed under the provisions of Title III, Subtitle a, Section 301 (a) of the Agricultural Adjustment Act of 1938 as amended by the Agricultural Acts of 1948, 1949, and 1956. See February *Agricultural Prices* for details on adjusted base price and parity price computations. Parity data not available for blank cells. Primary source of data for livestock and milk prices is United States Department of Agriculture's Agricultural Marketing Service]

<sup>1</sup> Equivalent returns at processing plant door.

<sup>2</sup> Adjusted base price is carried forward from the previous year since current marketing year average price is not yet available.

<sup>3</sup> Equivalent returns at packinghouse door.

<sup>4</sup> Equivalent returns for bulk fruit at first delivery point.

<sup>5</sup> Dried basis.

<sup>6</sup> Equivalent packinghouse-door returns for California, New York (apples only), Oregon (except peaches), and Washington. Price at point of first sale for other states.

<sup>7</sup> Based on "as sold" prices for fresh fruit in all states.

<sup>8</sup> Relates to prices including average conditional payments per ton made under the sugar acts of 1937 and 1948. Crop deficiency and abandonment payments not included.

<sup>9</sup> Prices In-Shell basis except almonds which are shelled basis.

<sup>10</sup> FOB shipping point price.

<sup>11</sup> Includes some processing.

## Marketing Year for Specified Commodities

**Corn for Grain:** September 1 to August 31 for United States; July 1 to June 30 for Texas; August 1 to July 31 for Alabama, Arkansas, Florida, Georgia, Louisiana, Mississippi, North Carolina, Oklahoma, South Carolina, and Tennessee; September 1 to August 31 for Arizona, California, Delaware, Illinois, Indiana, Iowa, Kansas, Kentucky, Maryland, Missouri, Nebraska, New Mexico, Ohio, Pennsylvania, South Dakota, Virginia, and West Virginia; October 1 to September 30 for all other States.

**Dry Edible Beans:** September 1 to August 31 for United States and all States.

**Chickpeas (Garbanzo):** September 1 to August 31 for United States.

**Flaxseed:** July 1 to June 30 for United States and all States.

**Sunflower:** September 1 to August 31 for United States; July 1 to June 30 for Texas; September 1 to August 31 for all other States.

### Market Year Average Prices Received for Flaxseed – States and United States: Marketing Years 2017 and 2018

States	2017	2018

**Prices Received and Marketing Percentages for Small Chickpeas (Garbanzo) by Month – United States: Marketing Years 2017-2018 and 2018-2019**

[Small chickpeas are smaller than 20/64 inch. Marketing year average (MYA) prices are weighted average prices for the United States marketing year of September - August. Monthly farm marketings are based on a sample survey and used as a percent of total for calculating MYA prices]

Month	Prices received		Marketing percentages

## Reliability of Prices Received Estimates

**Definition:** Prices received represent sales from producers to first buyers. They include all grades and qualities. The average commodity price from the survey multiplied by the total quantity marketed theoretically should give the total cash receipts for the commodity.

**Survey procedures:** Primary sales data used to determine grain prices were obtained from probability samples of about 1,900 mills and elevators. These procedures ensure that virtually all grain moving into commercial channels has a chance of being included in the survey. Generally, States surveyed account for 90 percent or more of total United States production. Livestock prices are obtained from packers, stockyards, auctions, dealers, and market check data from AMS-USDA, private marketing organizations, and state commodity groups and agencies. Inter-farm sales of grain and livestock are not included since they represent very small percentages of the total sales. Grain marketed for seed is also excluded. Fruit and vegetable prices are obtained from sample surveys and market check data from AMS-USDA, private marketing organizations, state agencies, and universities.

**Summary and estimation procedures:** Survey quantities sold are expanded by strata to state levels and used to weight average strata prices to a state average. State prices are then weighted to a United States price based on expanded sales. Recommendations are prepared by the Regional Field Offices and reviewed by the Agricultural Statistics Board in Washington, D.C. State recommendations are reviewed for reasonableness with survey data, other States, and recent historic estimates.

**Revisions:** In general, revisions are made during annual commodity market year estimation time, following five-year Census revisions, or when later information is received. Revisions are published in monthly issues of *Agricultural Prices*.

**Reliability:** United States price estimates based on probability surveys generally have a sampling error of less than one percent for the major commodities such as corn, wheat, soybeans, cotton, and rice. Current methods of summarization for non-probability commodities are not designed directly to calculate sampling errors. However, analytical measures approximate the United States relative sampling errors at around five percent. Any non-sampling errors are attributed to such things as the inability to obtain correct information, differences in interpreting questions or definitions, mistakes in coding or processing the data, etc. Efforts are made at each step in the survey process to minimize these non-sampling errors.

**Program Changes:** After the Council on Food, Agricultural and Resource Economics (C-FARE) 2009 program review which included changes in farm production practices, plans were implemented to make necessary program improvements in the agricultural price program. The index group structure for prices received was modified to maintain a more universal structure and consistency with the required 1910-1914 series.

Modifications implemented January 2014 include the following: updated the current 1990-1992 base reference period to 2011; linked the 1910-1914 series to the updated base reference period, 2011; created index groups used universally by researchers, data users, and policymakers; and re-classified agricultural commodities into the index groups. Also the modifications expanded the commodity coverage for vegetable, melon, non-citrus, and tree nuts; updated monthly market weights; and adjusted (normalized) current five year moving average cash receipts and farm input cost weights.

Modifications implemented January 2015 discontinued preliminary prices and replaced the annual average index with an annual index.

The February 2016 program update changed the rounding of the 2011 base period indexes to nearest tenth of a percent. The 1910-1914 base period indexes remain rounded to the nearest whole number.

See Price Program Links at end of this report for program change details.

## October Prices Paid by Farmers

The October Prices Paid Index for Commodities and Services, Interest, Taxes, and Farm Wage Rates (PPITW), at 110.1, is up 0.5 percent from September 2019 and 0.3 percent from October 2018.

**Production:** The October index, at 106.1, is up 0.6 percent from September but 0.7 percent lower than last year. Higher prices for feeder cattle, feeder pigs, milk cows, and nitrogen more than offset lower prices for other services, potash and phosphate, mixed fertilizer, and supplements.

**Feed:** At 102.0, the October index increased 0.3 percent from September and 3.0 percent from last October. Since September, higher prices for hay and forages, complete feeds, feed grains, and concentrates more than offset lower prices for supplements.

**Livestock and poultry:** The October index, at 99.4, increased 4.5 percent from September but decreased 7.4 percent from last year. Compared to last month, prices are higher for feeder cattle, feeder pigs, and milk cows. The October feeder cattle price, at \$140.00 per cwt, is up \$6.00 per cwt from the September price. October feeder pigs averaged \$106.00 per cwt, up \$9.00 per cwt from previous month.

**Fertilizer:** The index for October, at 63.4, is down 0.2 percent from September and 6.9 percent from October a year ago. Since September, lower prices for potash and phosphate along with mixed fertilizer more than offset higher prices for nitrogen.

**Chemicals:** The October index, at 95.9, is up 0.7 percent from September and 3.0 percent from last October.

**Fuels:** At 68.0, the October index is up 1.6 percent from September but 13.2 percent below October 2018. Compared with September, prices are higher for diesel, LP gas, and gasoline.

**Machinery:** The index for October, at 125.9, was unchanged from September and 3.2 percent above last October. Prices are higher for other machinery compared with last month.

**Consumer Price Index:** The October 2019 Consumer Price Index for All Urban Consumers (CPI-U), as issued by the Bureau of Labor Statistics, increased 1.8 percent over the last 12 months to an index level of 257.346 (1982-1984=100). For the month, the index increased 0.2 percent prior to seasonal adjustment.

<sup>1</sup> Effective January 1995, prices of commercial prepared feeds are based on current United States prices received for corn, soybeans, alfalfa hay, and all wheat.

<sup>2</sup> The price of commercial prepared broiler feed is based on current United States prices received for corn and soybeans. The modeled feed uses 58 percent corn and 42 percent soybeans.

<sup>3</sup> The price of commercial prepared layer feed is based on current United States prices received for corn and soybeans. The modeled feed uses 75 percent corn and 25 percent soybeans.

<sup>4</sup> The price of commercial prepared dairy feed is based on current United States prices received for corn, soybeans, and alfalfa. The modeled feed uses 51 percent corn, 8 percent soybeans, and 41 percent alfalfa.

<sup>5</sup> The price of commercial prepared turkey feed is based on current United States prices received for corn, soybeans, and wheat. The modeled feed uses 51 percent corn, 28 percent soybeans, and 21 percent wheat.

## Prices Received Used to Calculate Feed Price Ratios – United States: October 2019 with Comparisons

## Reliability of Prices Paid Estimates

**Definition:** Prices paid by farmers represent the average costs of inputs purchased by farmers and ranchers to produce agricultural commodities. Conceptually, the average price when multiplied by quantity purchased should equal total producer expenditures for the item.

**Survey procedures:** The prices paid data are obtained from establishments that sell goods and services to farmers and ranchers. Annually, about 8,500 firms are randomly selected from lists by type of item sold with an average response rate in the range of 75-80 percent. Firms are asked to report the price for the specified item "most commonly bought by farmers" or that was the "volume seller". Approximately 135 items are surveyed each March to represent all production input items purchased. The survey reference period for most items is the five business days centered at the 15th of the month. Separate prices paid surveys are conducted for agricultural chemicals, fuels, feed, fertilizer, machinery, and seed.

**Summary and estimation procedures:** The annual March Prices Paid Survey is summarized as a non-probability survey. Average prices reported are aggregated to the region and United States level using weights available from expenditure data and other administrative sources. Price recommendations are prepared by the Regional Field Offices and Headquarters for review by the Agricultural Statistics Board in Washington, D.C. Also, the change in price level for individual items surveyed are combined to the regional and United States levels, and are published as prices paid indexes referenced to a specific base period. Prices paid indexes for new autos and trucks, building materials, farm supplies, motor supplies, and marketing containers are updated based on price changes measured in selected Bureau of Labor Statistics (BLS) indexes.

**Revisions:** Any revisions are published in the monthly and in annual issues of Agricultural Prices. The basis for revision must be supported by additional data that directly affect the level of the estimate. More revisions are likely for March when separate prices paid surveys are conducted, in lieu of BLS indexes, by the USDA to measure price change.

**Reliability:** Current methods of summarization for the March data are not designed directly to calculate sampling errors. However, analytical measures approximate the United States relative sampling errors for major items around 10 percent. Any non-sampling errors are attributed to such things as the inability to obtain correct information, differences in interpreting questions or definitions, mistakes in coding or processing the data, etc. Efforts are made at each step in the survey process to minimize these non-sampling errors.

**Program change:** Effective January 2014, the National Agricultural Statistics Service modified the five-year moving weights and updated the base reference period. In January 2015, publication of preliminary prices was suspended, and the annual average index was replaced by an annual index.

As of January 2014, the 1990-1992 base reference period was updated to 2011. Five-year moving average weights are adjusted (normalized) to minimize the effects of price changes. The 1910-1914=100 price indexes, required by statute for computing parity prices, were linked forward based on the changes in the new 2011=100 indexes. The new indexes were constructed by multiplying the ratios of the current prices to the base period prices by the moving average weights.

Modifications implemented January 2015 discontinued preliminary prices and replaced the annual average index with an annual index.

The April 2015 program update discontinued publication of the annual March survey prices paid data.

The February 2016 program update changed the rounding of the 2011 base period indexes to nearest tenth of a percent. The 1910-1914 base period indexes remain rounded to the nearest whole number.

See Price Program Links at end of this report for program change details.

## Information Contacts

### General

Jody McDaniel, Chief, Environmental, Economics, and Demographics Branch..... (202) 720-6146

### Crop Prices Received

Lance Honig, Chief, Crops Branch ..... (202) 720-2127

Travis Thorson, Head, Field Crops Section ..... (202) 720-2127

Chris Hawthorn – Corn, Flaxseed, Proso Millet ..... (202) 720-9526

James Johanson – County Estimates, Hay ..... (202) 690-8533

Jeff Lemmons – Oats, Soybeans ..... (202) 690-3234

Sammy Neal – Peanuts, Rice ..... (202) 720-7688

Jean Porter – Rye, Wheat ..... (202) 720-8068

Chris Singh – Cotton, Cotton Ginnings, Sorghum ..... (202) 720-5944

Travis Thorson – Canola, Mustard Seed, Rapeseed, Safflower, Sunflower, Barley, Crop Weather ..... (202) 720-7369

Jorge Garcia-Pratts, Head, Fruits, Vegetables, and Special Crops Section..... (202) 720-2127

Joshua Bates – Almonds, Apples, Apricots, Asparagus, Carrots, Coffee, Onions, Plums,  
Prunes, Sweet Corn, Tobacco ..... (202) 720-4288

Jorge Garcia-Pratts – Dry beans, Garlic, Hazelnuts, Honeydews, Kiwifruit, Lettuce, Maple Syrup,  
Mint, Pears, Sweet Cherries, Tart Cherries, Tomatoes ..... (202) 720-2127

Fleming Gibson – Cauliflower, Celery, Grapefruit, Lemons, Macadamia,  
Mandarins and tangerines, Mushrooms, Olives, Oranges ..... (202) 720-5412

Greg Lemmons –Cranberries, Cucumbers, Pistachios, Potatoes, Pumpkins, Raspberries,  
Squash, Strawberries, Sugarbeets, Sugarcane, Sweet Potatoes, Tame Blueberries,  
Wild Blueberries..... (202) 720-4285

Dan Norris – Artichokes, Cantaloupes, Dry Edible Peas, Green Peas, Lentils,  
Nectarines, Papayas, Peaches, Snap Beans, Spinach, Walnuts, Watermelon ..... (202) 720-3250

Dawn Smoker – Avocados, Bell Peppers, Broccoli, Cabbage, Chickpeas, Chile Peppers, Dates,  
Floriculture, Grapes, Hops, Pecans ..... (202) 720-4215

### Livestock Prices Received

Travis Averill, Chief, Livestock Branch ..... (202) 720-3570

Scott Hollis, Head, Livestock Section..... (202) 720-3570

Holly Brenize – Sheep and Goats ..... (202) 720-0585

Heidi Lanouette – Cattle and Cattle on Feed ..... (202) 720-3040

Mike Miller – Milk, Milk Cows ..... (202) 720-3278

Seth Riggins – Hogs and Pigs ..... (202) 720-3106

Tony Dorn, Head, Poultry and Specialty Commodities Section..... (202) 690-3223

Fatema Haque – Turkeys..... (202) 720-3244

Kim Linonis – Eggs..... (202) 690-3676

Adam Peters – Honey..... (202) 690-3237

Takiyah Walker - Broilers..... (202) 720-6147

### Indexes, Prices Paid, and Parity Prices

Jody McDaniel, Chief, Environmental, Economics, and Demographics Branch..... (202) 720-6146

Bruce Boess, Head, Economics Section..... (202) 720-4447

Kuan Chen – Prices Received Indexes, Parity Prices, Prices Paid Indexes, Prices Paid for Feed,  
Fertilizer, Chemicals, Seeds, Fuels, Farm Supplies and Repairs, Farm Machinery, Feeder Livestock,  
Poultry Chicks, Feed Price Ratios..... (202) 690-3347

Stephen Habets – Prices Received Indexes, Parity Prices..... (202) 720-9168

John Stephens– Prices Received Indexes, Parity Prices ..... (202) 720-8844

## Access to NASS Reports

For your convenience, you may access NASS reports and products the following ways:

- All reports are available electronically, at no cost, on the NASS web site: [www.nass.usda.gov](http://www.nass.usda.gov)
- Both national and state specific reports are available via a free e-mail subscription. To set-up this free subscription, visit [www.nass.usda.gov](http://www.nass.usda.gov) and click on “National” or “State” in upper right corner above “search” box to create an account and select the reports you would like to receive.
- Cornell’s Mann Library has launched a new website housing NASS’s and other agency’s archived reports. The new website, <https://usda.library.cornell.edu>. All email subscriptions containing reports will be sent from the new website, <https://usda.library.cornell.edu>. To continue receiving the reports via e-mail, you will have to go to the new website, create a new account and re-subscribe to the reports. If you need instructions to set up an account or subscribe, they are located at: <https://usda.library.cornell.edu/help>. You should whitelist [notifications@usda-esmis.library.cornell.edu](mailto:notifications@usda-esmis.library.cornell.edu) in your email client to avoid the emails going into spam/junk folders.

For more information on NASS surveys and reports, call the NASS Agricultural Statistics Hotline at (800) 727-9540, 7:30 a.m. to 4:00 p.m. ET, or e-mail: [nass@usda.gov](mailto:nass@usda.gov).

The U.S. Department of Agriculture (USDA) prohibits discrimination against its customers, employees, and applicants for employment on the basis of race, color, national origin, age, disability, sex, gender identity, religion, reprisal, and where applicable, political beliefs, marital status, familial or parental status, sexual orientation, or all or part of an individual's income is derived from any public assistance program, or protected genetic information in employment or in any program or activity conducted or funded by the Department. (Not all prohibited bases will apply to all programs and/or employment activities.)

If you wish to file a Civil Rights program complaint of discrimination, complete the [USDA Program Discrimination Complaint Form](#) (PDF), found online at [www.ascr.usda.gov/filing-program-discrimination-complaint-usda-customer](http://www.ascr.usda.gov/filing-program-discrimination-complaint-usda-customer), or at any USDA office, or call (866) 632-9992 to request the form. You may also write a letter containing all of the information requested in the form. Send your completed complaint form or letter to us by mail at U.S. Department of Agriculture, Director, Office of Adjudication, 1400 Independence Avenue, S.W., Washington, D.C. 20250-9410, by fax (202) 690-7442 or email at [program.intake@usda.gov](mailto:program.intake@usda.gov).

# USDA's Agricultural Outlook Forum

## 96th Annual The Innovation Imperative: *Shaping the Future of Agriculture*

February 21-22, 2020 • Crystal Gateway Marriott Hotel, Arlington, Virginia

## Registration is now open for the 2020 Agricultural Outlook Forum

Join us February 20-21, 2020  
Crystal Gateway Marriott Hotel Arlington, Virginia

Register [Here](#)

## The Agricultural Outlook Forum

- USDA's largest annual gathering and the agricultural sector's premiere event
- Brings together more than 1,500 sector leaders and professionals to connect and discuss current and key emerging issues in agriculture
- More than 30 sessions covering commodity markets and outlook, international trade, agricultural policy, as well as cutting edge topics that will influence the future of agriculture

**For More Information**, please contact Forum Coordinator [Mirvat Sewadeh](#) at 202-720-5447

# Drainage Work Order Request For Repair

## Hardin County

**Date:** 12/9/2019

**Work Order #:** WO00000281

**Drainage District:** DDs\DD 118-232D2 (51226)

**Sec-Twp-Rge:** 32-89-22      **Qtr Sec:** NW 1/4

**Location/GIS:** 89-22-32-400-003

**Requested By:** Sterling Renaud

**Contact Phone:** (515) 689-8661

**Contact Email:** \_\_\_\_\_

**Landowner (if different):** Burton, Floyd

**Description:** DD 118-232 Dv2- Sterling Renaud reports plugged tile outlet on east side of AA Ave, just north of County Hwy D25, about 4 telephone poles north of D25 on east side of AA Ave. nearest parcel is 892232400003. Tile outlet is plugged with dirt/debris and has no flow. Tile outlet is in ditch and has been flagged by Sterling. Map reflects tile has road crossing at this location, so not sure if this is a tile outlet or a tile blowout.

**Repair labor, materials and equipment:** \_\_\_\_\_

\_\_\_\_\_

\_\_\_\_\_

**Repaired By:** \_\_\_\_\_ **Date:** \_\_\_\_\_

**Please reference work order # and send statement for services to:**

Hardin County Auditor's Office  
 Attn: Drainage Clerk  
 1215 Edginton Ave, Suite 1  
 Eldora, IA 50627  
 Phone (641) 939-8111  
 Fax (641) 939-8245

For Office Use Only

**Approved:** \_\_\_\_\_ **Date:** \_\_\_\_\_
